Needs Assessment Evaluated

The evaluation of last year's Needs Assessment has not indicated any significant changes for the school system. The community did, however, give directions for the future by showing a concern for career education and job awareness. Mr. Singles shares these concerns and also hopes that the high school can maintain enough students to be able to offer courses to suit everyone's needs.

1. Throughout the year Mr. Singles does the budgeting, all purchasing and payment of bills, and investment of money. Moreover, he oversees the entire operation of the school.
2. This year the Instructional Policies Committee has been reviewing and updating its objectives and expectations. The committee has been working on meeting the goal of continuity of instruction among the three buildings of the school system. Pictured *(L-R)* are Mr. Singles, I.P.C. chairman; Mrs. Tursak, teacher representative; and Mr. Hall, high school building administrator.
3. Mrs. Kora Terry is currently Administrative Assistant and has been employed at Morenci for thirty-eight years.
4. This is Mrs. Loretta Garwood's third year as Internal Accounts Secretary.

Mr. Beck Is New Board President

This is Robert Beck's first year to serve as School Board President. As president, Mr. Beck *(Left)* works closely with Mr. Singles to maintain harmony between all factions of the district. The Board has had the entire curriculum under scrutiny for areas that need improvement to meet the needs of a rapidly-changing society. Another Board concern is continuity in the curriculum of kindergarten through twelfth grade. The Board is currently investigating the process of goal-setting to improve its overall effectiveness to the service of the district.

Mr. Hall Shows Concern

This year Principal Harold Hall is concerned with improving what the school can do to develop the students' potential. He feels that teachers must keep high expectations of the students in order to keep the school's climate at a degree that is better for students who want to learn. Also, changes must be made in the attitudes of those students who have reservations about school. Overall, however, Mr. Hall is satisfied with students' attitudes and the way the constantly-changing curriculum is meeting their needs.

1. Mr. Hall has been Morenci High School's Principal for eighteen years. He earned a B.S. and an M.E. in education from the University of Toledo and has completed eighteen hours of study at Michigan State University.
2. Mr. Hall is checking the master schedule.
3. Alice Keller *(Left)* and Carol Smith are secretaries at the high school. Mrs. Keller majored in business and minored in accounting at Adrian College. She has been working at MHS for fifteen years. Mrs. Smith attended Stautzenberger Business College where she received her Secretarial Degree. This is her sixth year at MHS.

M.H.S. Has Fewer Problems

Mr. McKelvey meets monthly with counselors from other schools to discuss common problems and goals. From the meetings, Mr. McKelvey has concluded that our high school does not have the rash of problems that other schools have. Our success may be attributed to our school's comparative financial stability, positive attitudes among students and faculty, and a large amount of counseling done by the teachers.

1. Dave McKelvey has been at Morenci for seven years, counseling for the past three years. He majored in English and physical education at Adrian College and received his M.A. in guidance counseling from Siena Heights College.
2. Kay Kutzley is secretary for Mr. McKelvey and the Athletic Department. She received a B.S. in business education from Adrian College and has completed 18 hours in guidance counseling at Siena Heights College.

New Program Incorporated

The addition of four new English classes has given the students more options. Other improvements in the department include new student and collegiate dictionaries.

1. Rosemary Tursak is in her eleventh year of teaching. She attended Albion and Siena Heights Colleges where she obtained a B.A. in English, sociology, and Latin, and an M.A. in curriculum and instruction. Classes under her instruction are Dynamics, Speech, Directed Reading, Expository Composition, Creative Writing, and Journalism II. Here she is helping with an elementary school creative writing project.

She has earned a B.S. in English American literature, language, and sociology, and is now working on an M.A. in teaching of reading at E.M.U. In addition to developmental Reading I, II, and III, English IV, and Career Education, Miss Thompson also teaches Potpourri, added to the curriculum this year.
3. Marjorie Orban has been employed by MHS for fourteen years. She has attended many colleges including Michigan State University where she earned a B.S., the University of the State of New York where she obtained a B.A., and Siena Heights College where she received an M.A. in home education, language arts, and secondary education. Mrs. Orban is currently teaching English IV, American Literature, Short Story, Mythology, and three new classes which include Death: A Lively Experience, Once Upon a Time, and Lights, Camera, Action.

Mr. Bruce Promotes Politics

For the third consecutive election year, Mr. Larry Bruce has organized our school convention. He uses the format of the national convention and his experience as county convention advisor to plan the event. He begins preparing weeks in advance by choosing seniors to lead the convention groups, selecting the issues that will be voted on, and explaining parliamentary procedure to the students. Once the students begin their delegation assignments, Mr. Bruce is responsible for all of the paperwork and publicity.

1. Larry Bruce, in his ninth year at MHS, earned his B.S. and M.S. in social studies comprehension from Bluffton College. He has done graduate work at St. Francis and currently instructs Career Education, Modern American History, Government, and Sociology.
2. Mary Helen Montgomery has been teaching here for three years. Among the many colleges she has attended is the University of Michigan where she earned her Master's Degree in Spanish and Hispanic studies. Ms. Montgomery instructs Spanish, Michigan History, and Michigan Government.

Preserve Provides Workshop

Since the first pine trees were planted in the nature area fourteen years ago, students have mapped the area and it has been set aside by the school board as a preserve. Students in Mr. Buehrer's science classes have studied animal life in the area, taken soil profiles, and determined the water flow of the stream. The limiting factors of the area, such as light, temperature, humidity, and evaporation rates have also been studied. In the future, Mr. Buehrer plans to repeat the plant and animal surveys to determine types of succession taking place and to make the area available for student research projects and other study programs.

1. Dennis Quist is in his third year of teaching. He received his B.S. in mathematics and chemistry/physics from Central Michigan University and currently instructs Basic Math, Geometry, Algebra II, and Trigonometry.
2. Linda Hames, in her eighth year of teaching at Morenci, attended Albion College and Western Michigan University to obtain a B.A. and M.A. in physics and Mathematics. Hobby Complements Career

Mr. Clelland's career is dependent upon his shop knowledge, but he also uses his skills as an avocation. These skills have enabled him to make several spinning wheels, picture frames, toys, and games, and to construct his new home. He often uses the objects that he makes in his spare time to help teach skills to students in his Crafts class. This show-and-tell method helps to show students how to use hand tools and small power tools. After the students learn these skills they are able to make Christmas tree ornaments, bird houses, lamps, jewelry, and many other items.

1. Rex LeaTrea received a B.S. in animal husbandry and vocational education from Michigan State University and has done postgraduate work. He is in his third year of teaching Agricultural Power Mechanics, Basic Agriculture, Basic Electronics and Small Engines, Basic Mechanics and Industrial Arts, and Horticulture.

New Teacher Brings New Ideas

Mrs. Stegman came to Morenci this year and brought with her many new ideas and goals for the choirs. Her major goals were for each individual to become a better singer and for the choir as a whole to become more musically sensitive and expressive. To create a positive group identity for the concert choir, Mrs. Stegman ordered matching T-shirts for the group.

1. Sandra Stegman is a new addition to Morenci High School's teaching staff. It was from Baldwin-Wallace College and the University of Michigan that she received a B.M. in voice performance and music education, and an M.M. in choral education. Mrs. Stegman instructs the concert choir as well as middle school music, choir, and English.
2. Jeffrey Vogie, now in his third year of teaching, received a B.S. in music education and minored in music theory and history. He conducts the high school and middle school bands.

A Day in the Life of a Freshman

The freshmen brought new personality to the high school. Their transition from Middle School was made without any major problems; however, they found class work more difficult and time consuming.

Revista Fights Inflation

This year's eleven staff members worked diligently to fight inflation and, at the same time, maintain a high quality yearbook. The class decided at the beginning of the year to sacrifice sixteen pages of the book's coverage in order to keep the color section.

Jeff Van Havel Places Gold

Senior Jeff Van Havel received a Gold State Agriculture Production Degree at the 53rd Annual Convention of the Michigan Association of FFA. Phil Pummel, a 1979 Morenci graduate, also received a Silver State Proficiency Award in agriculture sales and service.

The FFA Club is often associated with agriculture on farms, however, it is actually a vocational club which offers many opportunities for its members to grow in scholarship and leadership, and to develop vocational skills. After graduation, FFA members can build a career around their vocational skills. For example, Jim Gillen ('79) is employed in sales at Smith-Douglas, Kevin Shay ('79) is a self-employed chicken farmer, and Phil Pummel is employed at Arbuckle's Farm and Home Center.

1. The FFA officers are *(L-R)* Reporter Mary Cook, President Deb Burns, Treasurer Geneva Williams, Vice-President Jeff Davis, Secretary Randall Williams, and Sentinel Richard Zook.

Students Train for Jobs at Vo-Tech Center

Morenci has forty-eight students attending the Lenawee Area Vocational Technical Education Center (Vo-Tech) in Adiran, Michigan. Vo-Tech offers juniors and seniors educational experiences that are not available in high school. It also offers a Co-op program that enables seniors to take part-time jobs that are related to their career goals.

America Regains Respect

On November 4, 1980, Ronald Reagan led the Repbulican party to a victory when he won the Presidential election by a landslide, receiving 489 of the 538 electoral votes. The record number of voters that turned out to the polls indicated that the American people had rejected the Carter Administration and wanted the change Reagan offered. Along with Reagan's victory came many other Republican victories giving the GOP control of the Senate for the first time in 27 years.

After 444 days of captivity, the 52 American hostages were finally released on January 20, 1981. At the Rhein-Main Air Base in Wiesbaden, West Germnay, the hostages first stop, they were greeted by a banner proclaiming "Welcome to the Freedom Hotel." At the hotel the former hostages first made contact with their families by telephone; however, they had to undergo complete physicals before returning to their homes. State Department's Medical Director Dr. Jerome Korcak reported that no major physical ailments because of captivity were found, although some suffered treatable, post-traumatic stress.

"We are now at the threshold of a new capability to investigate the universe," said NASA Director Robert Frosch. Finally, after a two-year delay, the *Columbia* was ready to be launched on April 26, 1981. The space shuttle was the first space craft capable of landing and being reused. President Reagan told the astronauts, "Through you, we feel as giants once again."

Violence Strikes

Former Beatle John Lennon was shot and killed on December 8, 1980 outside his hotel room in New York City. Lennon, a brilliant musician, had emphasized the themes of love and peace and helped not only to touch, but also to transform, an entire generation. Across the country, record stores reported sell-outs of Lennon's newest album, *Double Fantasy,* as well as his previous albums. Radio stations throughout the country cleared the air and had special tributes. In Los Angeles over 2,000 people gathered togehter in a candlelight vigil at Century City. Lennon's death was unlike that of Elvis Presley: Presley seemed trapped and defeated, whereas Lennon had the desire to live.

The terror of the attempted assassination of the President stunned the American people. On March 30, 1981, John Hinckley, Jr. shot President Reagan, Press Secretary James Brady, Secret Service Agent Timothy McCarthy, and Policeman Thomas Delahanty. Throughout the United States, the American people pulled together and prayed for the recovery of the President and his men. On a wall of a Washington factory there was a message for the President: "Dear Mr. President, There ain't no Republicans or Democrats now . . . we are all family. Get Well Quick Ron . . . We Need You! America. P.S. We can't afford to lose a citizen."

Bulldogs Start Strong

After posting an impressive 53 to 8 victory over Sand Creek and climbing to number 12 in the regional computer poll, the 1980 Varsity Football Team seemed destined for success. With 10 returning lettermen, 8 of which were seniors, the ball club looked strong. Also returning in their third years of duty were outstanding coaches, Harold Hall, Greg Lamley, and Mike McDowell.

The season began with excitement, winning the first two games and having a chance in the state playoffs. However, the Bulldogs were then beaten three consecutive times before beating Clinton 16 to 6 in the presence of a homecoming crowd. They then defeated a strong Manchester team 19 to 0, ending a four year domination. Morenci ended up with a 5-4 record.

1. Guard Eric Johnson clears a path for halfback Jim Shaffer.
2. Coaches Harold Hall and Mike McDowell give instructions during a time out.
3. Captains Robert Wood, Rick Collins and Jim Shaffer wait for the toss of the coin.

JV's Gain Experience

The Junior Varsity Gridders had every win elude them en route to finishing 0-8 on the season. The Bulldogs were not totally dominated, losing several games by 7 points or less. Inexperience is what hampered the success of the team. The team consisted of underclassmen, with only 5 returning players from last year's squad. Second Year Coach Jim Gilmore expects to have an improved team next year.

Morenci had a few bright spots in the year from the running of Tyler Youtzy and Phil McCaskey and the defensive effort of Doyle Sutherland. The team should contribute to the varsity team next year.

Girls Ready for Next Year

Overcoming a height disadvantage, the Girls' Junior Varsity Basketball Team ended up second in the league.

Leading scorers, Karrie Borton, with 162 points, and Sandra Sutherland, with 135 points, lead the team to a 7-5 league record. Sandra Sutherland also lead the team in rebounds, pulling down 155, followed by Kandi Davis with 112.

Coach Tursak feels that with the teams' willingness to work and learn they will be a plus factor to the basketball program next year.

1. Tammy Taylor inbounds the ball.
2. Jody Baugh looks to the boards for a rebound.
3. Sandra Sutherland adds to her total points.
4. Karrie Borton waits for the rebound.
5. Kandi Davis looks for a hole.

Varsity Has Rebuilding Season

Even though the Girls' Varsity Basketball Team lost 4 of last year's starters, they remained enthusiastic and ended up 3rd in the league with a 5-7 record.

Shari Sallows ended the season as leading scorer, with 272 points, and as a member of the LCAA First Team. Ronda Sutherland, in her first year on varsity, ended the season as leading rebounder, with 129.

Coach Johnson predicts a good season for next year's team, since the team will be losing only 3 members to graduation.

1. Geneva Williams goes for a lay-up.
2. Denise Huff goes up for two.
3. Ms. Johnson completed her 8th year of coaching at MHS.

Golfers Have Rebuilding Year

The Morenci Golf Team had a disappointing season with an overall record of 0-16. The team consisted of inexperienced young team members. The entire team will be returning next year. Coach Larry Bruce is in his second year of duty.

There were several players that had good outings during the year. Mike Closson had a low score of 54 and was named Most Valuable Player. Other players charting good scores were Jeff Bell with a 56 and Scott Aughney with a 60.

Coach Bruce is eagerly awaiting next year because he expects to have an improved and experienced team.

2. Dennis Smith prepares to tee off.
3. Scott Aughney works on perfecting his putting game.
4. Steve Woerner concentrates on his next stroke.

Cross Country Rebuilds

Interest was greatly improved on the Cross Country program with the return of 3 sophomores and an addition of 4 new runners for the boys, and a complete girls' team.

This is the first year that Cross Country has generated enough interest to support a girls' team for a full season. Three seniors came out with a supporting cast of 3 underclassmen. Their enthusiasm took them all the way to the State Meet, placing Deb Burns 45th, Janice Clelland 47th, Mary Cook 60th, Sarah Schaffner 64th, and Deb Jones 89th, out of 150 entries. Injuries kept Sandie Keefer from participating at State.

The boys' season was highlighted by the qualification of Tracy Hall for the State Individual Run. Tracy finished 14th at the Class D Regional Run and 31st at State.

Coach Lea Trea expects next year's team to be one of the most experienced teams in the county with the return of 7 lettermen from this year's team.

1. Mary Cook overcame all difficulties and consistently turned out better times.
2. Greg Stella rapidly improved until injuries and illness set him back.
3. *L-R:* T. Hall, C. Long, D. Piercy, B. McVay, G. Stella, S. Woerner, J. Bernath (mgr.), S. Aughney.
4. Mr. LeaTrea plans to continue as cross country coach.
